

# Compliance Summary

## Platinum-cured silicone gaskets

### 1. Regulation compliance statements

#### 1a. Animal Derived Content Free (ADCF)— Tallow/BSE/TSE

Watson-Marlow Fluid Technology Group works closely with our raw materials suppliers to ensure traceability of our raw materials and production process. We can confirm that BioPure Platinum-cured silicone gaskets and their raw materials are manufactured from ADCF components. As such BioPure Platinum-cured silicone gaskets are considered Animal Derived Content Free.

#### 1b. Phthalates

Phthalates are not used in the raw material or manufacture of BioPure Platinum-cured silicone gaskets. As such it would not be expected to be present in BioPure Platinum-cured silicone gaskets or extracted solutions from BioPure Platinum-cured silicone gaskets.

#### 1c. Bisphenol A (BPA)

BPA is not used in the raw material or manufacture of BioPure Platinum-cured silicone gaskets. As such it would not be expected to be present in BioPure Platinum-cured silicone gaskets or extracted solutions from BioPure Platinum-cured silicone gaskets.

#### 1d. Latex

Latex is not used in the raw material or manufacture of BioPure Platinum-cured silicone gaskets. This includes contact materials used during the manufacturing process.

#### 1e. Allergens

BioPure Platinum-cured silicone gaskets do not contain allergens such as milk, eggs, crustaceans, wheat, soy, corn, peanuts, tree nuts (as defined by the FDA CFR 21.164.110). BioPure Platinum-cured silicone gaskets do not come into contact with any allergens during the manufacturing process.

#### 1f. Restriction of Hazardous Substances (RoHS) EU Directives

No hazardous substances as defined by the RoHS directive have been added in the manufacture or the raw materials of BioPure Platinum-cured silicone gaskets.

#### 1g. Registration, Evaluation, Authorisation of Chemicals Hazardous to Health (REACH)

Watson-Marlow Fluid Technology Group products comply with the REACH regulations. Furthermore no substances are intentionally released as a result of using our products for their intended purpose.

BioPure Platinum-cured silicone gaskets do not contain any Substance of Very High Concern (SVHC) as established by the European Commission HA Candidate list.
