DuCoNite25

Bredel DuCoNite® pumps

Features and benefits

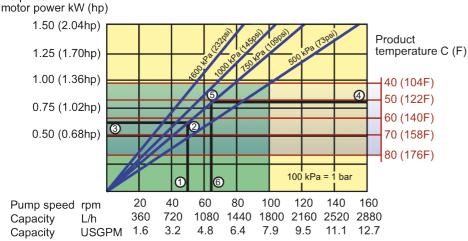

- Dry running and self-priming •
- Suction capability up to 9.5 mWC (374 inWC) •
- Simple hose change decreases cost of ownership, downtime and need for parts • inventory
- "Beyond the hose" protection against common water and waste water treatment • chemicals
- Paint-free pump housing perfect for wash-down in the food industry •
- No slippage, allowing true positive displacement for accurate, repeatable metering

DuCoNite 25

- No ancillary equipment, check valves, sealing water flush systems or run-dry • protection required
- Fully reversible to blow out suction and drain lines safely •

DuCoNite25 performance

Required

1. Flow required indicates pump speed

- 2. Calculated discharge pressure
- 3. Net motor power required
- 4. Product temperature
- 5. Calculated discharge pressure
- 6. Maximum recommended pump speed

Note: The area of continuous operation diminishes with increased product temperatures. For product temperatures >40C, the area of continuous operation reduces to the corresponding red temperature line.

Continuous duty Intermittent duty

* Maximum 3 hours operation followed by minimum 1 hour stop

ANSI, DIN											

Please consult your Bredel representative for lower or higher temperature operation. Allowable ambient temperature is based on pump capabilities and may be further limited by gearbox ambient capabilities.

Materials of construction

	DuCoNite25									
Hose material	CSM, EPDM, F-NBR, Natural rubber (NR), NBR, NBR for food, NR-Metering, NR-Transfer									
Housing	Cast iron with DuCoNite surface treatment									
Rotor assembly	Cast iron with DuCoNite surface treatment									
Cover assembly	Cast iron with DuCoNite surface treatment									
Brackets and fasteners	Stainless steel 316									
Support frame	Stainless steel 316									
Hose clamps	Stainless steel 316									
Seals	EPDM, Viton®
